STOCK EXCHANGE ANNOUNCEMENT NO. 10-2014

FTE Automotive has now received approval from the German competition authorities to acquire the remanufacturing production of brake calipers from the SBS Group.

Due to the timing of the closing of the transaction, the expectation of a positive Group equity is now 31 October 2014 instead of 30 September 2014 as announced in the company announcement of 1 September 2014.

The other usual conditions for closing the announced agreement are still expected to be fulfilled and the financial expectations remain unchanged.
